

* Ty's Tiny Tidy-Up

... Website Bingo + Mini Fix Guide ...

A gentle nudge from Ty: *Pick a square (or a row!) and give your website a little love.*

Check your contact form	Fix any broken links	Mobile website check
Update your footer		Make email + phone clickable
Replace old or blurry images	Refresh home page content	Click through every page

Test your contact form

Fill out all fields and make sure submissions go through.

Fix any broken links

Use a free link checker like [BrokenLinkCheck](#) and fix any that are flagged.

Mobile website check

Pull up your website on your phone and look for weird spacing or tiny text.

Update your footer

Check that your copyright year and links are current.

Make email + phone clickable

On mobile, tapping should open your [email app](#) or [phone dialer](#).

Replace old or blurry images

Swap out anything outdated, pixelated, or stretched.

Refresh home page content

Update text or images if it's been a while; even a small tweak can help.

Click through every page

Pretend you're a visitor: is your message clear? Does everything feel easy to use?
